Part-Time MEAN Stack Engineer

Skills

1. Specific extended experience in Angular 4, NodeJS
2. Full stack and fluent with every aspect of the MEAN Stack
3. Several years of experience with HTML, CSS and JavaScript
4. Strong knowledge of SQL, especially noSQL with MongoDB
5. Extensive knowledge of Git Versioning, both desktop and command line
6. Experience with AWS, specifically S3, Elastic Beanstalk (great for Angular 4 applications), and Route 53
7. Excellent interpersonal and communication skills. Can both spearhead a project as well as work as a dedicated group member.
8. Very strong work ethic and mature disposition. Despite having yet to complete university course work I have taken several college level courses and have what it takes to handle very challenging workloads with precise efficiency.
9. Able to adapt quickly and manage a demanding workload effectively.
10. Fluent in English, French and Russian with working knowledge of Chinese.

Education

University of Toronto / Double Major in Computer Science and Cognitive Science

September 2017 - 2021 St. George's Campus in Toronto

Admitted to the Faculty of Arts and Sciences on University of Toronto's main campus, I will begin my undergraduate studies this September, as a specialist in Computer Science and a double major in Neuroscience .

The Loomis Chaffee School / High School Diploma

September 2013 - May 2017, Windsor CT USA

Graduating on the high-honor roll from this preparatory school has allowed me to establish a strong base in the liberal arts, while also practicing leadership, independence and diligence.

Experience

MEAN Stack Engineer

June 2017 - September 2017 / Explore Canada Immigration Services

At Explore Canada I was given the opportunity to completely redesign the company website from the ground up. Bringing my experience from previous projects built with the MEAN Stack as well as my cooperative and adaptable nature, I constructed not only the company landing page but also a complex form processing app equipped with powerful logic and user

friendly content.

Log Web Director

2016 - 2017 / Loomis Chaffee

Acting as the Web Director for my school newspaper, I constructed and maintained a website while leading a Web team to develop content.

http://thelclog.org/

Front End Developer

2016 - 2017 / Laornis

Worked at a Front End developer for Laornis to build their landing page for the ipallocation launch. Used HTML, CSS and JavaScript extensively.

https://www.ipallocation.com/

Prefect and Resident Assistant

2015 - 2017 / Loomis Chaffee

Spending two years as both a Prefect and an RA at my boarding high school I was able to lead through example while also establishing a respectful and open community. I worked closely with other Prefects and RAs as well as with dorm Faculty members to supervise work, plan and execute events and maintain a healthy community.

International Student Ambassador

2016 - 2017 / Loomis Chaffee

As an ISA I worked to integrate incoming freshmen from different countries into the school community, addressing their concerns and planning international student events.

Tour Guide

2014 - 2016 / Loomis Chaffee

Serving as a tour guide at my school allowed me to constantly meet new people, develop interpersonal skills and welcome potential students.

President of Computer Science Club

2016 - 2017 / Loomis Chaffee

After being Vice-President of the club last year, I constructed a curriculum for my club while gathering interest and helping students on their projects.

World Bulletin Editor

2016 - 2017 / Loomis Chaffee

I wrote several lengthy world news articles for my school journal while also editing articles submitted by other students.
